SAN LORENZO VILLAGE EARTH DAY RESOURCE ACTIVITY 2020 Sat. Aug. 8th

Given the unusual events around the planet, and due to the unpredictable nature of the Novel Corona Virus, the SLVHA has decided to re-invent this event into the activities listed below, which provide for less contact between people and allow for better physical distancing. This and future events may still be postponed, changed or canceled without notice due to changing conditions with respect to the virus at the scheduled time of the event. Masks or face coverings are required for public portions of these activities.

If you would like to participate, here are the current planned activities (do not violate any health orders to participate):
