

NOTICE

Construction in your area will be starting soon!

San Lorenzo Community Park - Phase 2

Overview:

The Hayward Area Recreation & Park District (HARD) has awarded a contract to Suarez & Muñoz Construction (SMC) of Hayward, California to construct Phase 2 of the San Lorenzo Community Park to be located at 1970 Via Buena Vista in San Lorenzo. The scope of the Project is the renovation of the eastern half of the Community Park including new playground, outdoor fitness equipment, new parking lot, new dog parks, a community lawn, picnic shelters, new restroom building, irrigation, and planting. We anticipate construction to begin the week of September 27, 2021, through the end of January 2023.

During this project you can expect:

- Working hours from 8:00 a.m. to 5:00 p.m., Monday through Friday excluding holidays.
- Residents will have full access to the west side of the park and the west side amenities (Phase 1) at Via Catherine. There are no changes to the access and park hours through the Via Catherine Gate.
- Residents will have pedestrian only access to the west side areas of the park (Phase 1) through the Via Buena Vista Gate, as well as vehicular drop off/pick up only for registered users of the community center programs.
- The Via Carreta Gate will be used for the primary construction access. As such it will be closed to pedestrians. The Via Caretta Gate will also be the primary path of construction vehicle travel as it represents the shortest route through the neighborhood.

In summary:

- 1. The Via Catherine entrance has full access to Phase 1 of the park, no changes.**
- 2. The Via Buena Vista entrance is open only to pedestrians for Phase 1 access and drop off/pick up for the community center building.**
- 3. The Via Carreta Gate will be used as the primary construction access point.**

For any questions and/or day-to-day concerns, please contact the project manager representing SMC Carlos Lopez at (510) 782-6065

For planning or programming concerns, please contact Michael C. Williams, HARD Senior Bond Project Manager - Sanlorenzoparkproject@haywardrec.org

You may also visit the project's webpage under Community Outreach at <https://www.haywardrec.org/1966/San-Lorenzo-Community-Park---Phase-2>.

Public Access to Community Center is for drop off and pick up only. **No vehicle access to Phase 1.** See pedestrian only path of travel for access to Phase 1.

Via Carreta Construction Access Only. No Pedestrian Access. Please use Via Buena Vista and/or Via Catherine

Primary park entrance during construction at Via Catherine.
